

Evolve Sterling Silver Tuatara Charm

\$49.00

SKU LK021

The tuatara is the only survivor of an ancient group of reptiles who used to roam Gondwanaland before it split and formed Aotearoa. Now only found on protected islands in New Zealand, the tuatara is a real “living fossil”™, which has remained unchanged in over 225 million years. This charm is a symbol of endurance and celebrates Aotearoa’s uniqueness.
